## You can help make Wishes like Robin's come true!

Robin's life plunged into the unknown when she was diagnosed with a brain tumor. From hospital stays, to waiting for test results, to recovering at home, nothing gave Robin comfort like escaping into the pages of her favorite book, *Alice's Adventures in Wonderland*.

The escape she found in its pages was the inspiration for her Make-A-Wish® experience. Her two-day adventure involved visiting multiple landmarks, and support from several well-known local businesses and dozens of community members. Together, they created a magical adventure that transported Robin and her family far away from hospital beds and treatment, and catapulted them into Robin's imaginary world as her wish came true.

## A Wish for every child

Each year, an estimated 112 children throughout New Hampshire are diagnosed with a life-threatening medical condition. When a child is diagnosed, their world suddenly collapses. They are robbed of a carefree childhood and are forced to deal with realities that no child should have to undergo.

So, imagine the joy, elation and gratitude that these children and families experience when they receive an unconditional wish. This gift is unparalleled and unique to Make-A-Wish®. It is something that no medicine, no doctors and no nurses can provide. You can be a part of bringing these wishes to life, one at a time, for every eligible child in New Hampshire every year.
